

Thank you for your purchase! I take great pride in the board you have received; with more than 500 individual components, eight microcontrollers, and four power supply modules, it is my most complex project to date. I consider myself fortunate to be part of the nixie community – a group so diverse, yet so connected. There is something special about display tube technology, that much is certain. I hope you will enjoy your board, and if you have any questions or concerns, please reach out to me at mahdi07@msn.com or (404)771-3315.

DUSTOFF!

2LT Al-Husseini, Mahdi

P.S. Please send me a photo, by email or text, of you with your new board. It will not be made public, but it will go in my photo album.
